

April 9, 2021

Dear Hypoparathyroidism Community,

We wanted to provide an update on the teleconference we plan to set up with Takeda leadership and the hypoparathyroidism patient community to provide more context regarding our March 31st communication. We are currently compiling questions and we are also collecting feedback from some members of the community regarding a proposed timeframe for the follow-up call with our leadership team.

We will plan to post a date/time for the teleconference in the coming weeks in alignment with the community's feedback. We will also share the teleconference details with the Hypoparathyroidism Association.

Sincerely,

A handwritten signature in black ink, appearing to read "Tom Koutsavlis".

Tom Koutsavlis
Head of US Medical Affairs
